

How Do I Get Precalculus or Calculus Solutions for Textbook Problems?

The complete Solutions Manual is also available as downloadable files. Students are allowed access to the Solutions Manual if you give them the link. Teacher/students can download the solutions to their computers or view online.

1. From the top menu bar, choose either Precalculus or Calculus and then Solutions Manual.

2. Once you get into the site, you as a teacher has the option to give the URL to your students. This will not work for the assessments. The URL simply redirects to the login page of the assessment site.

The screenshot shows the CPM website interface. At the top, there is a purple header with the CPM logo and the text "COLLEGE PREPARATORY MATHEMATICS". Below the header is a navigation menu with tabs for "Teachers Home", "Information", "Resources", "Reference", "Workshops", and "Ordering". The "Reference" tab is selected. On the left side, there is a sidebar with links for "Standards", "Research & Results", "Articles", "Newsletters", and "California Issues". The main content area is titled "Solutions" and "Pre-Calculus with Trigonometry". A dropdown menu is open, showing a list of solutions manuals for chapters 1 through 6, with file formats like ".doc" and ".pdf".
